São Paulo Java Meetup (Organizer/Speaker) - <http://bit.ly/1Uwo249>

03/2015 - Today

## **Photon Group - Senior Developer (1 year 1 month)**

Photon Group is a multinational of products for bodybuilding, weight loss and wellness.

- Automated testing infrastructure deployment with Jenkins and BrowserStack.
- Integrations (shipping carriers, payment providers, anti fraud, marketing tools).
- DevOps using Nginx, Chef, Rundeck and monitoring with New Relic APM and Browser.

Technologies used: Java 8, Spring MVC 4, QueryDsl, Selenium, Maven, SpringData, RabbitMQ, Rundeck, Hibernate, Jetty, Postgresql, Mongo, Git, ElastiCache, Rds, Ec2, Ses, Lambda.

04/2014 - 03/2015

## **Rocket Internet - Senior Developer (1 year)**

Airu is the largest marketplace of fashion and design in Brazil, is a venture of Rocket Internet

- Development of reactive apis with Play Framework and Java 8.
- Development components with bootstrap 3, Jquery, Less, Sass and angular JS.
- Integration with SIGEP (Brazil postoffice system).
- Migration on-premise servers to aws cloud (AWS CloudSearch, EC2, S3, ElastiCache).
- Implementation of Continuous Delivery and automations with Jenkins.
- DevOps with apache, puppet, new relic APM and browser.

Technologies used: Java 8, Spring, Maven, Couchbase, Hibernate, Tomcat, Postgresql, Git, ElastiCache, Rds, Ec2, CloudSearch, Solr.

11/2013 - 04/2014

### **UOL - Senior Developer (6 months)**

UOL is the largest portal in Brazil and has the largest payment gateway.

- Development Api Restfull (HATEOAS) and SOAP Web Services.
- Integration with external and internal systems using Apache Camel.
- Implementation of continous delivery and integration with hudson.
- Implementation of DDD,TDD and tech talks on the team.

Technologies used: Java 7, RabbitMQ, Spring MVC, Jersey, Hibernate, Jetty, Oracle, MongoDB, Git, Apache Camel, Selenium, Maven.

06/2013 - 11/2013

### **Guiato - Developer (6 months)**

The Guiato is an innovative e-commerce of Bonial International Group in Brazil.

- Maintenance and fullstack evolution of e-commerce written in groovy / grails.
- Data analysis dashboard development using geolocation and graphics.
- Clojure scripts to transform data.
- DevOps with apache, puppet, docker, datadog and airbrake.

Technologies used: Groovy, Grails, Clojure, Java 7, Tomcat, Gradle, Docker, Postgres, MongoDB, Git, Solr.

02/2012 - 06/2013

### **UOL - Developer (1 year 5 months)**

The marketplace "Todaoferta" and "TodoDesconto" collective shopping website are part of the UOL largest portal in Brazil.

- Maintenance, development of e-commerce platforms.
- Clustering, caching and integration systems.
- Implementation continous delivery and automations with Jenkins.
- Development of indexer and search cores of solr.

Technologies used: JBoss, Jetty, JMS, EJB, Solr, Jenkins, Mysql, Spring, Hibernate, Svn, Selenium, Maven, MenCached.

03/2011 - 02/2012

### **Dynasty Technology Group - Developer (1 year)**

Dynasty is an innovative and solid company in the business of banking and industry.

- Development of an ATM monitoring dashboard for bank Bradesco.
- Scaling the system to monitor 5000 to 35000 ATM.
- Communication Development based on JMS and sockets.

Technologies used: WebSphere, WebLogic, JSF, JMS, EJB, Oracle, Hibernate, Svn, Maven.

08/2009 - 03/2011

### **Capgemini - Developer ( 1 year 8 months)**

Capgemini is one of largest consulting services , technology and outsourcing in the world.

- Development internal systems of Bradesco bank using JSF
- Integration of mainframe systems (COBOL) using JCA

Technologies used: Java 5, JSF, EJB, Tomcat, Spring, Tiles, Maven, Svn.

01/2008 - 08/2009

### **Proxima Sistemas - Junior Developer ( 1 year 8 months)**

Proxima is a commercial automation company.

- Raise with the client new features to the software.
- System Evolution.
- Deploy systems on the client.

Technologies used: Java 5, JSF, Tomcat, Svn.

### **Formation**

Bachelor in Information Systems - Fals

- 2008 - 20011

Computer Technician - ETEC

- 2005 - 2006

### **Languages**

Portuguese - Native

English - Advanced Level

### **Certifications**

Oracle Certified Master Java EE Enterprise Architect

AWS Certified Solutions Architect

AWS Certified Developer

Oracle Certified Professional Java EE 5 Web Services Developer

Oracle Certified Professional, Java EE 5 Business Component Developer

Sun Certified Web Component Developer

Sun Certified Java Programmer 6

Sun Certified Java Associate

### **Courses**

Enterprise Application Architect Java EE - Oracle.

Managing agile projects with Scrum - Caelum.

Functional Programming Principles in Scala - Coursera.

Principles of Reactive Programming - Coursera.

Docker Workshop - Infoslack.
